

## 60L ECO SPRAY' ATV Sprayer with Drain Bung Only and Ring Terminal for ATV

**£313.56**

Reference: Q27Q

### **Product description:**

60L ECO SPRAY' ATV Sprayer with Drain Bung Only and Ring Terminal for ATV The EcoSpray is our basic model of ATV spot sprayer suitable for boom spraying. Equipped with a high-capacity pump, lockable plastic hand lance and an automatic pressure cut-out switch to save battery life. It comes with 2m of hand lance hose with optional extra length. The EcoSpray comes with a basic white tank and has a simple well for better chemical delivery and moulded on handles that can hold up to 15m of hose and ensure easy carrying. It is ideal for both spot spraying and boom spraying. It fits on any ATV in seconds. 60L capacity. Our range of ATV sprayers run off a 12v supply and so can be used with a stand alone battery. It is possible to run these sprayers off a ride on lawnmower, Jeep /4x4 or tractor. You may need to add a suitable mounting bracket for some vehicles to attach the sprayers to. You may benefit from ordering our sprayers with the option of a 7 pin trailer plug which would allow you to simply plug the wiring into your trailer lighting socket and turn on your side lights to power the sprayer. As standard our ATV sprayers come with a wiring kit fitted with ring terminals to suit connection straight to a battery or for an ATV. Specification High capacity pump for boom spraying and spot spraying. Easy to use plastic hand lance with high flow nozzle 2m hose with extra length optional Drain plug for easy drainage of tank contents. Wiring kit supplied. Quick release connection. Low maintenance. Easily fits onto any ATV. Runs off 12v power supply. Additional Boom Options are available with our sprayers, go to the Quad ATV Boom Range to see choices. Video demonstration
